

BH DEFENSE

ISO CERTIFICATION

BH Defense is ISO certified for the quality assurance program that backs implementation of our risk-mitigation methodologies and the physical security assessments that accompany them. This is virtually unheard of in this field.

Other companies may have ISO certification for pieces of the risk-management continuum, but BH Defense is ISO **certified across its entire risk-mitigation methodology.**

BH Defense and the ISO Certification

ISO 9001:2015 is an international standard for quality management systems, developed by the International Organization for Standardization (ISO). A quality management system outlines the steps necessary to improve and control the processes by which a company runs its business.

“ISO 9001:2015 is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. Using ISO 9001:2015 helps ensure that customers get consistent, good quality products and services, which in turn bring many business benefits.”

Excellent management, superior planning, and diligent execution places BH Defense on the front line of the emerging business sector of Private Military Companies.”
