

9 REASONS TO TRUST BH DEFENSE WITH YOUR SUCCESS

1. **We Never Fail** –BH Defense has a 100% successful past performance. We have never failed on a project and there has never been a serious injury to civilians, employees or partners associated with our work. If BHD can deliver success — and safety— in Iraq, the company can do it in any environment.
2. **Depth of Expertise** – BH Defense depth of expertise with security, logistics, supply chain, construction management, project management and training translates to any organization that must deploy equipment, secure critical infrastructure, and protect people, assets and workflow— locally or worldwide.
3. **Forefront of Technology**—BH Defense can find solutions to any risk scenario by deploying proven solutions in new ways and giving clients access to advanced, reliable, and perfect-fit technologies that aren't yet mainstream in non-military markets.
4. **Best Value** —BH Defense creating custom solutions from COTS and preconfigured components.
5. **We know How to Build from Zero** – BH Defense experience amid devastation and lack of infrastructure in war zones, for instance, is of direct value in helping government and private organizations not only recover from the aftermath of a natural disaster like a hurricane, but to put plans in place ahead of time that make all the difference in getting back to “normal” faster.
6. **We Are Your Partner** – BH Defense does not produce recommendations and walk away. We take action to take of care risks and monitor new threats as they emerge.
7. **Our Solutions are Vendor-Neutral** - This frees BH Defense to make the right risk mitigation recommendations, and it frees you to operate confidently— knowing you've gotten the absolute best solution at the absolute best value.
8. **Long Term Boots on the Ground** – BH Defense has been performing in one of the world's most hostile environments—since 2003. In fact, we're the only US government support contractor continuing full support operations during the current crisis in Iraq. We thrive because we understand where threats exist and how to mitigate them, and we understand how to deliver when everything, including lives depends on us getting everything right. “BH Defense always gets it right.”
9. **ISO 9001 Certified** —BH Defense is well-underway with ISO certification for the quality assurance program that backs our risk-mitigation methodology. This is virtually unheard of in this field. Other companies may have pieces of ISO certification for pieces of the risk-management continuum, but BH Defense is being ISO certified across its entire risk-mitigation methodology.
