

BH Defense is committed to providing the intellectual know how and direct support necessary to enable our customers to successfully prosecute future missions and technical goals while working in non-permissive environments globally “anytime anywhere”.

Our innovative and time-tested systems approach (SAT) implemented by highly experienced professionals ensures customer satisfaction in the government and commercial marketplace.

BH Defense team members have a proven global track record of training, mentoring, and advising high profile personal protection staff that secure top-level dignitaries globally.

Globally, we are prepared to embed international advisers with units throughout their rigorous training cycle and sensitive operations.

BH DEFENSE “MODUS OPERANDI”

We employ highly qualified instructors in order to create specific curriculum for:

- Host national Professional Military Education
- Operational training & Tactical support to the U.S. Department of Defense, Department of State, Department of Justice, host national Ministries of Defense and Interior
- Advanced soldier and unit fire and maneuver training
- Advanced rural & urban combat training
- Advanced intelligence, surveillance, and reconnaissance training
- Collection management training
- Technical support to Human Infrastructure Training (HUMINT)
- Long-range individual weapons training
- Target Acquisition training (TA)
- Movement to contact training
- Offensive and defensive operations training
- Specializing in Covert, overt, clandestine, and asymmetric warfare training

REAL-WORLD EXPERTISE

BH Defense trained and mentored the personal protection staff for a top-level dignitary. We hired instructors and created the curriculum for a Professional Military Education (PME).
